

I would like to know if the US still a free country. We went to war in Iraq so they can have a choice to choose. Why am I punish of loosing the XM radio so that the big company can keep their profit. Isn't it the freedom of choice is what make america great? I chose to pay to have XM radio in my car. That is my choice.... IF Xm radio provide me with better service for my choice it good for me. Why is it a crime to have a choice? Isn't the goverment work for the people? and not for big company. I pose that question to you?
